

Journal of Oceanography

Volume 51 (1995)

Contents

Number 1

T. Suga and K. Hanawa: Subtropical Mode Water South of Honshu, Japan in the Spring of 1988 and 1989	1-19
N. Rajendran, O. Matsuda, N. Imamura and Y. Urushigawa: Microbial Community Structure Analysis of Euxinic Sediments Using Phospholipid Fatty Acid Biomarkers	21-38
S. Watanabe, N. Higashitani, N. Tsurushima and S. Tsunogai: Methane in the Western North Pacific	39-60
Y.-H. Seung and J.-H. Yoon: Some Features of Winter Convection in the Japan Sea	61-73
Y. Shirayama and T. Fukushima: Comparisons of Deep-Sea Sediments and Overlying Water Collected Using Multiple Corer and Box Corer	75-82
S. Takahashi, Y. Isoda and T. Yanagi: A Numerical Study on the Formation and Variation of a Clockwise-Circulation during Winter in the Yellow Sea	83-98
H. Miyake, S. Sasaki, H. Yamaguchi, K. Masuda, G. Anma and Y. Kamei: Thermohaline Staircases in the Warm-Core Ring off Cape Erimo, Hokkaido and Their Fluxes Due to Salt Finger	99-109
S.-Y. Chao, P.-T. Shaw and J. Wang: Wind Relaxation as a Possible Cause of the South China Sea Warm Current	111-132

Number 2

Y. W. Watanabe, K. Harada and K. Ishikawa: Dilution of North Pacific Intermediate Water Studied with Chlorofluorocarbons	133-144
I. Yasuda and G. R. Flierl: Two-Dimensional Asymmetric Vortex Merger: Contour Dynamics Experiment	145-170
K. Akitomo, K. Tanaka, T. Awaji and N. Imasato: Deep Convection in a Lake Triggered by Wind: Two-Dimensional Numerical Experiments with a Nonhydrostatic Model	171-185
M. Fukasawa, T. Teramoto and K. Taira: Hydrographic Structure in Association with Deep Boundary Current in the North of the Shikoku Basin	187-205
A. Kubokawa: Stationary Rossby Waves and Shocks on the Sverdrup Coordinate	207-224
T. Yanagi, K. Ishikawa, K. Inoue and S. Susami: Convergence, Divergence and Vertical Velocity at a Tidal Front in Hiuchi-Nada, Japan	225-238
S. Watanabe, N. Tsurushima, M. Kusakabe and S. Tsunogai: Methane in Izena Cauldron, Okinawa Trough	239-255

Short Contribution

S. Kojima, T. Kobayashi, J. Hashimoto and S. Ohta: RFLP Analysis of a Mitochondrial Gene, Cytochrome Oxidase I (COI) of Three Species of the Genus <i>Calyptogena</i> around Japan	257-259
--	---------

Number 3

A. Tsuda: Fractal Distribution of an Oceanic Copepod <i>Neocalanus cristatus</i> in the Subarctic Pacific	261-266
T. Ito, A. Kaneko, H. Furukawa, N. Gohda and W. Koterayama: A Structure of the Kuroshio and Its Related Upwelling on the East China Sea Shelf Slope	267-278
T. Kamiyama: Change in the Microzooplankton Community during Decay of a <i>Heterosigma akashiwo</i> Bloom.....	279-287
A. Shimada, M. Nishijima and T. Maruyama: Seasonal Appearance of <i>Prochlorococcus</i> in Suruga Bay, Japan in 1992-1993	289-300
L. Z. Cong and M. Ikeda: Assimilation of Simulated Altimeter Data in a Two-Layer Linear Rossby Wave Model Using the Variational Method	301-326
G. Yuan, I. Nakao, H. Fujimori and A. Kaneko: Long-Term Measurement of Temperature Variabilities off Mindanao Island by the Ocean Acoustic Tomography	327-339
J. Hashimoto, S. Ohta, K. Fujikura, Y. Fujiwara and S. Sukizaki: Life Habit of Vesicomyid Clam, <i>Calyptogena soyoae</i> , and Hydrogen Sulfide Concentration in Interstitial Waters in Sagami Bay, Japan.....	341-350
N. Ebuchi and K. Hanawa: Comparison of Surface Current Variations Observed by TOPEX Altimeter with TOLEX-ADCP Data	351-362
C.-A. Huh: Th Isotopes in the Santa Monica Basin: Temporal Variation, Long-Term Mass Balance and Model Rate Constants	363-373
K. Furuya and K. Harada: An Automated Precise Winkler Titration for Determining Dissolved Oxygen on Board Ship	375-383

Number 4

Y. Hisaki and M. Tokuda: Detection of Nonlinear Waves and their Contribution to Ocean Wave Spectra Part I: Theoretical Consideration	385-406
Y. Hisaki and M. Tokuda: Detection of Nonlinear Waves and their Contribution to Ocean Wave Spectra Part II: Observation	407-419
Y. H. Seung and J.-H. Yoon: Robust Diagnostic Modeling of the Japan Sea Circulation	421-440
M. Kubota, H. Yokota and T. Okamoto: Mechanism of the Seasonal Transport Variation through the Tokara Strait	441-458
T. Yanagi, T. Hagita, T. Saino, T. Ishimaru and S. Noriki: Transport Mechanism of Suspended Matter above the Shelf Slope at the Mouth of Tokyo Bay	459-470
A. Yoshimori, J. Ishizaka, T. Kono, H. Kasai, H. Saito, M. J. Kishi and S. Taguchi: Modeling of Spring Bloom in the Western Subarctic Pacific (off Japan) with Observed Vertical Density Structure	471-488

Short Contribution

R. K. Reed: On Geostrophic Reference Levels in the Bering Sea Basin 489-498

Number 5

W. Cai: The Different Behaviour of Modeled Ocean Circulation under an Atmosphere with Different Heat Capacity 499-517

S. Tsunogai, S. Watanabe, M. Honda and T. Aramaki: North Pacific Intermediate Water Studied Chiefly with Radiocarbon 519-536

T. Yanagi and K. Inoue: A Numerical Experiment on the Sedimentation Processes in the Yellow Sea and the East China Sea 537-552

C. E. James and M. Wimbush: Inferring Dynamic Height Variations from Acoustic Travel Time in the Pacific Ocean 553-569

H. Matsuura: An Application of a Two-Layer Model to Wind Driven Sub-Tidal Currents in Puget Sound 571-584

M. L. Batteen, C.-P. Hu, J. L. Bacon and C. S. Nelson: A Numerical Study of the Effects of Wind Forcing on the Chile Current System 585-614

Short Contribution

T. Kamiyama, S. Itakura and K. Nagasaki: Effects of Irradiance on Excystment of Tintinnids from Marine Sediments 615-618

Number 6

M. Kubota and A. Shikauchi: Air Temperature at Ocean Surface Derived from Surface-Level Humidity 619-634

M. Kawamiya, M. J. Kishi, Y. Yamanaka and N. Suginoara: An Ecological-Physical Coupled Model Applied to Station Papa 635-664

T. Azumaya and K. Ohtani: Effect of Winter Meteorological Conditions on the Formation of the Cold Bottom Water in the Eastern Bering Sea Shelf 665-680

Y. Kumamoto, K. Fujiwara and H. Tsubota: Temporal Variation of the Partial Pressure of CO₂ in Surface Seawater of Iyo Nada in the Seto Inland Sea, Japan 681-697

H. Takeoka, Y. Tanaka, Y. Ohno, Y. Hisaki, A. Nadai and H. Kuroiwa: Observation of the Kyucho in the Bungo Channel by HF Radar 699-711

Y.-G. Park, Y.-K. Cho and K. Kim: A Hydraulic Model of the Korea Strait Bottom Cold Current 713-727

Short Contribution

K. Ichikawa, S. Imawaki and H. Ishii: Comparison of Surface Velocities Determined from Altimeter and Drifting Buoy Data 729-740
